Information Technology student aspiring to become a competent and innovative IT professional specializing in **Web Development, Cybersecurity, Networking, and DevOps**. Passionate about emerging technologies and committed to continuous learning to enhance skills and make impactful contributions to the IT industry.

Education

Bina Sarana Informatika University - Jakarta, Indonesia

Sep 2022 - Sep 2026 (Expected)

Bachelor of Teknologi Informasi, 4.00/4.00

- Participated in 4 campus workshops focused on technology and cybersecurity to expand practical IT understanding.
- Completed over three intensive bootcamps in Web Development and Cybersecurity to deepen technical proficiency through structured training.

Experience

ID-Networkers - Jakarta

July 2025 - December 2025

Internship - IT Network & Bootcamp Mentor

- Mastered advanced Cisco and MikroTik concepts including SD-WAN, Network Automation, VPN, and BGP architectures.
- Mentored 5+ Network Engineer Bootcamp participants on industry-standard curriculums (CCNA, MTCNA, MTCRE).
- Executed technical projects involving system hardening, network installation, and the development of educational training modules.

ID-Networkers Bootcamp - Jakarta

March 2025 - May 2025

Cyber Security

- Acquired cybersecurity fundamentals in networking, OS, and risk management through 50+ hours of self-study.
- Authored weekly cybersecurity articles on a personal blog for 8 weeks to document foundational concepts.
- Utilized 5+ security tools (e.g., Wireshark, Nmap, Metasploit) for system attack and defense simulations.

Coding Camp 2025 Powered by DBS Foundation - Jakarta

Feb 2025 - July 2025

Front-End dan Back-End Developer

- Developed Full Stack technical skills through self-directed learning and effective team collaboration.
- Collaborated with the Machine Learning team to implement Front-End and Back-End web functionalities.
- Delivered a real-time Indonesian-to-Sign Language translator web application as a Capstone Project.

Kampus Merdeka Metrodata Academy - Jakarta

Sep 2024 - Dec 2024

Cyber Force - Blue Team

- Studied CSCU principles to acquire a foundational understanding of computer security and data protection in digital environments.
- Mastered ECIH modules to enhance cyber incident handling capabilities, covering the full lifecycle from threat identification to system recovery.
- Completed an intensive 3–4 week CND training and examination program to master network defense techniques and team-based system monitoring.
- Executed a final project focused on hardening system architecture using efficient security methodologies and open-source platforms.

Skills, Certification

- **Technical Skills** (2026): Linux, AWS, Digital Ocean, Docker, Podman, Kubernetes, Cisco, Mikrotik, Fortigate, OWASP TOP 10, Javascript, Svelte, React, Bun, NodeJs, Python, FastAPI, Flutter, Bash Script, Git, Ansible, Rust, MySQL, Redis, PostgreSQL
- **Non Technical Skills** (2026): Communication, Collaboration, Problem Solving, Discipline, Time Management, Multitasking, Adaptability
- **Certification** 📄(2026): EC-Council CND, Comptia Linux+, AWS CCP, MikroTik MTCNA, MikroTik MTCRE, MikroTik MTCEWE, Dicoding, Skilvul
